Specialty Societies Summit focus: Call to unity

AAOS, Specialty Societies develop plan for future relationships

LLRS

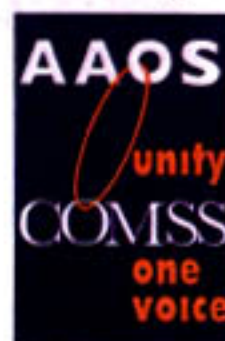

The Limb Lengthening and Reconstruction Society: ASAMI-North America will conduct a full day of programming at the Washington Convention Center in Room 206 beginning at 8 a.m.

A pediatrics symposium, moderated by David S. Feldman, MD, will cover fibula hemimelia, limb deficiency, radial club hand, spinal distraction, internal lengthening nail for congenital anomalies, complex pediatric foot deformity and soft tissue contractures about the knee. Reggie C. Handy, MD, will moderate the "Bone Graft Substitutes and Bone Growth Stimulation" symposium that follows.

In the afternoon session, **S. Robert Rozbruch, MD**, will moderate a symposium on the foot and ankle covering pilton fractures, ankle/foot contractures, ankle distraction, complex foot deformity correction with osteotomy, new foot and ankle TSF applications and management of Charcot deformity.

Specialty Day puts subspecialties

RECONSTRUCTION SOCIETY:
ASAMI-NORTH AMERICA

ACCREDITATION

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council of Continuing Medical Education through the joint sponsorship of the American Academy of Orthopaedic Surgeons and the Limb Lengthening and Reconstruction Society. The American Academy of Orthopaedic Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

CME CREDIT

The American Academy of Orthopaedic Surgeons designates this educational activity for a maximum of 7 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

PEDIATRICS

Moderator: David S. Feldman, MD

- 8:00–8:25 am **Fibula Hemimelia: Current Concepts and Treatment**
Dror Paley, MD
- 8:25–8:50 am **Future Possibilities in Treating Limb Deficiency**
Benjamin Altman, MD
- 8:50–9:15 am **Radial Club Hand – Assessment and Treatment Options**
Scott H. Kozin, MD
- 9:15–9:40 am **Spinal Distraction – Current Concepts and Future Potential**
John G. Birch, MD
- 9:40–10:00 am **Break**
- 10:00–10:25 am **Internal Lengthening Nail for Congenital Anomalies**
Professor Rainer Baumgart
- 10:25–10:50 am **Management of Complex Pediatric Foot Deformity**
John E. Herzenberg, MD
- 10:50–11:15 am **Soft Tissue Contractures About the Knee: Treatment Options and Outcome**
Harold van Bosse, MD
- 11:15–11:35 am **Break**

BONE GRAFT SUBSTITUTES AND BONE GROWTH STIMULATION

Moderator: Reggie C. Hamdy, MD

- 11:30–11:55 am **The Use of Bisphosphonates in Distraction Osteogenesis**
David G. Little, MD
- 11:55 am–12:20 pm **The Use of Osteogenic Protein-1 in Limb Reconstruction**
Michael D. McKee, MD
- 12:20–1:30 p.m. **Lunch on own**

FOOT AND ANKLE

Moderator: S. Robert Rozbruch, MD

- 1:30–1:55 pm **Pilon Fractures**
James J. Hutson, Jr., MD
- 1:55–2:20 pm **Management of the Failed Pilon Fracture**
George Cierny, II, MD
- 2:20–2:45 pm **Treatment of Ankle/Foot Contactures**
Jason H. Calhoun, MD
- 2:45–3:10 pm **Ankle Distraction**
Peter Van Foremund, MD
- 3:10–3:30 pm **Break**
- 3:30–3:55 pm **Complex Foot Deformity Correction with Osteotomy**
Alexander Krienko, MD
- 3:55–4:20 pm **New Foot and Ankle TSF Applications**
J. Charles Taylor, MD
- 4:20–4:45 pm **Management of Charcot Deformity**
Paul S. Cooper, MD
- 4:45 pm **Adjourn**
